

CAN Europe – Gas Data Analyst (80%)

Gas Data Analyst (80%)

We are currently seeking a highly motivated, dynamic and results-driven **Data Analyst (80% work regime)** to **join CAN Europe's Energy Team in Brussels**. This is a unique opportunity to apply data and policy analysis to change legal frameworks and contribute to CAN Europe's mission in achieving fossil gas phase out from the EU's energy system by 2035. In addition to a **strong data analyst background**, this role requires **political awareness and strategic communications skills**.
